EcoSafe[®] V-200

Bio-Based, Fire Resistant Hydraulic Fluid

DESCRIPTION:

EcoSafe[®] V-200 is the latest addition to a line of hydraulic fluids designed for systems requiring readily biodegradable, nontoxic fluids. It can be used in industrial, marine and mobile service, including high-pressure systems, systems with servo valves, and all robotics. It is formulated from select, high-quality, high-VI vegetable oils and additives providing the properties required in hydraulic fluids while satisfying the stringent criteria for biodegradability and toxicity. **EcoSafe[®] V-200** provides the excellent anti-wear and film-strength characteristics necessary for hydraulic systems operating under moderate to severe conditions.

EcoSafe[®] V-200 is compatible with most commonly used elastomers of Buna-N, Viton[®], and EPR. Silicone rubber should be avoided. It is Factory Mutual approved as a fire resistant hydraulic fluid. **EcoSafe[®] V-200** is a USDA certified biobased product in the USDA BioPreferred[®] program.
