

CIC

# POWERBOX

## COAST LUBRICANTS & INDUSTRIAL SUPPLY

Color Options Include: Yellow / Black, Black Textured, or Clear Powder Coat Silver

## POWERGRiD

Installation Hardware Included

Delivering over 3 times the power of any other CIC Powerbox™ model, the CIC POWERGRiD™ provides over 50 Amps of continuous 115V AC Electric Power with a built-in battery system that will run for several hours during normal use. With the ability to be mounted vertically or horizontally, it's perfect for RV's, Campers, Utility Service Trucks, and Utility Vans, where remote off-grid power is essential!

42" Long X 33" Wide X 8.25" Tall

~ 400 lbs.

\*750 lbs load bearing installed as bed / man walkable

### Air Compression

- 125 PSI max / 90 PSI recycle
- 3 CFM @ 90 PSI oil-less DC air compression system
- Universal air coupler
- High duty cycle with forced air cooling

### Electric Power

- 115 Volt AC modified sine wave inverter
- 6,000-watt continuous / 12,000-watt surge
- 5400 watt hour battery reserve capacity
- 55 amp multi-stage smart charger for shore power overnight charging
- 20 amp weather-resistant external 120v AC duplex outlet
- 3-pin circular 30 amp 240v split phase power outlet
- 12V DC accessory port - SB50 anderson

### Jump Start

- 12V DC jump start with up to 2,100 cranking amps
- Red Anderson® connector jump start port
- Working conditions from -40° F up to 140° F
- One touch host vehicle self jump start feature
- 1 AWG 12' jumper cables

### Upgradeable Options

- 24v upgrade
- 5 gallon 6" diameter slim black metal air tank
- External retractable air hose reel 25' / 50'
- Wired remote switch panel
- Solar panel kit - 400w with smart controller
- POWERTRAK fleet monitoring system - worldwide
